

WOW! This is the, all time most offensive letter I've ever received in my 76 years! You obviously have no interest whatsoever in the concerns of your constituents. I will be sharing this little episode with all my fellow veterans at the VFW, American Legion, AMVETS, the Dallas, Waco, [Albuquerque](#) and various VA Hospitals in Europe (where I live part of every year). And what an appropriate day for it: May 28, 2018 – Memorial Day.

I have not been concerned, in any way, with the Russians since I was stationed at [NATO Air Bases in Europe](#) in the [60s](#).....when I also had to worry about the East Germans. I don't give doodly squat about Russian meddling in the elections or anything else about them.

My letter to you was about Google, the internet and its omnipotent power over ALL of us, and had nothing to do with the Russians.

I'm absolutely NOT interested in your [form letters](#) promoting your, and/or [President Dump's](#) political agendas.

Take a hint if you wish to be reelected: Train your staff to pay attention to the content of constituent letters to you and reply to them with specific regard to it (content).

After this insulting debacle, you can forget about vet votes well into the hundreds.....probably a lot more. We do NOT like to be taken for granted and ignored. Ignore us at your own peril. This and your reply will be broadcasted out over the internet to [as many sites and areas](#) of concern that I deem appropriate.

Starting with President Eisenhower, I've written many letters to my representatives and politicians over the years and they have ALWAUYS replied with regard to my concerns. I was a little kid when I wrote to Ike. He replied with two paragraphs which contained references to my issue and signed it with ink that I could smear.

References to your amazingly offensive, insulting affront to me and therefore Veterans. These will now be distributed all over the internet [in at least four languages](#) (I speak seven):

In past I have always campaigned for and supported you because I thought you were sensitive to and concerned about us veterans. Well, guess what now? You have just flushed my support down my toilet! The next time you irresponsibly leave it to your staff to send form letters as replies to letters from your constituents (instead of reading

and answering them yourself), you might consider the [rule or reciprocity](#).

A bit suicidal are you? Or maybe your IQ just ain't quite up to comprehending the Google – Internet menace. Either way or both, you need to see a psychiatrist.
