

Supper Power – Google

Can somebody on Capital Hill tell me why Google is allowed to have ten times the power that our government has and to virtually run everything that happens, not only in the USA, but pretty much the whole planet?

Congress finally got off it's confused and baffled butt long enough to do something about Facebook and Mark Zuckerberg.....but why stop there???????

Why not round up all the virtual criminals that run Google, put them in front of a firing squad, kill them and feed their carcasses to the vultures? Is our government so dumb and blind that it can not see that ALL of us are at the mercy of, and in the control of, the likes of Google and Zuckerberg?

Attackers might be trying to steal your information from geriatricgourmet.com (for example, passwords, messages, or credit cards). [Learn more](#)

Things like this are so common as to literally be mundane.....steal my passwords, credit card and bank account information? Who cares? Obviously not my government!

Everything about ALL of us e.g. our money, medical records, financial transactions, military and all Top Secret weapons etc. data, manufacturing, insurance, pharmaceuticals ad infinitum, is an open book to Google and our government is completely unaware of any of it!

This is one of maybe as many as 100+ similar or equivalent comments and messages I've received over the years from VA employees (doctors, administrators - all levels and departments):

“Mr Martin,

I am not able to view any files on google file. This is prohibited at the VA. You attach a WORD or excel file if needed.

Dr. ----- PharmD
Clinical Pharmacy Specialist”

The VA is literally terrified of Google and pretty much the internet and cyber space in general!

This was my reply to this person on [this page](#) of my website:

And if anybody in my government is interested, I sent this to various veterans' organizations (e.g. VFW, [etc.](#)) and VA executives:

Of course, concerned patriot (my family - farmer/soldiers/military medical going back to our war of Independence) or not I know I'm wasting my time. Oh well, it gets it off my mind for now.
