

## Wisdom

About **PDF** links:

If you just **left click** it, the **link** will open but it will replace the PDF. To bring it back (**back button**), the PDF will have to reload. This can take awhile. **Ctrl click** will open the link in a **new tab** so you have both open at once.

This happens because the **PDF makers** have been too preoccupied with trying to keep **Dick Cheney** from hacking into their websites and stealing all their money and they haven't had time to figure out this link mess.

Typical scene, 20,000 BC (winter):

“I need food for these kids, furs to put on their backs, firewood to keep them warm and the saber-toothed tigers from eating them. I guess when you perpetual juveniles finally get hungry enough to stop trying to prove who is the toughest guy among you by beating on each other, you might get around to some of this stuff. Oh yes, and I will also need some kind of bandages to deal with all the damage you've done to each other”. Women must bat their eyelashes and seem to be emotional and frivolous to deal with male ego/vanity and allow them to believe they are superior. Reality: Practical is wisdom. War is idiocy.
